

Your custom Canvas Session is 3 days away! Per the Session checklist provided in an earlier message, please double check that you and your team have completed the following tasks:

1. Completion of the Pre-Assessment survey. To be eligible to receive your certificate of completion, this assessment must be completed PRIOR to start of your Session.
2. Verify with your Sales Partner they will be capturing digital consent forms from the demo models the day of your Session.
3. Confirm arrival times and treatment area(s) with demo models.
4. Print Post Care Instructions and place them in an easily accessible location for retrieval during your Session.
5. Review your Digital Session Guide one more time and notate any questions you may have.

If necessary, you can click on the items below for quick reference:
